GET READY FOR WAR

ROOSEVELT IS ANXIOUS FOR ACTION ON BATTLESHIP APPROPRIATION.

FOUR BATTLESHIPS NEEDED

Nations Too Jealous to Give An Assurance of Universal Peace He Asserts.

Washington, April 14.—Virtually asserting that war is a contingency that may be expected to arrive at any time and bemoaning the fact that the Hague conference has not given the world any assurance of universal peace, President Roosevelt sent a message to congress today in which he calls upon America's legislative bodies to provide at once for the construction of four battleships.

Says the president: "It is idle to assume and, from the standpoint of national interest and honor, it is mischievous folly for any statesman to assume that this world has yet reached the stage or has come within a measurable distance of the stage, where a proud nation, jealous of its honor and conscious of its great mission in the world, can be content to rely for peace upon the forbearance of other powers. It would be equally foolish to rely upon each of them possessions at all times and under all circumstances and provocations an altruistic regard for the rights of others."

The message throughout is an admission that all hope of securing an agreement between nations, whereby the rate of increasing armament will be cut down has disappeared and that the only protection that a country may expect among the world powers is a steady and unrelenting preparation for war.

Following the reading of the message, the "antis" later gave vent to their feelings by applauding a petition from a number of citizens of New York City which was read at the instance of Mr. Tawney protesting against "the extravagance of spending over sixty million dollars for four battleships."

It was evident that the final vote will be close.

HOT FIGHT FOR BRYAN.

Friends of Nebraska to Demand Recognition Today.

New York, April 14.—The committee on resolutions late tonight adopted a set of resolutions to be presented to the convention when it reconvenes tomorrow, providing for an un-instructed delegation to the national democratic convention at Denver.

New York, April 14.—Sharp political skirmishes during the first session of the democratic state convention today, which developed a well-entrenched opposition to an instruction of New York delegates to the Denver national convention, was followed tonight by a general engagement of all the Bryan forces to force the committee on resolutions to endorse the candidacy of William J. Bryan for president by instructing the delegates to the national convention for him. While the first session of the convention at Carnegie hall, held for the purpose of organization, was apparently devoid of those incidents that betaken conflicting policies and an exciting convention, there were moves and counter-moves made beneath this substream of seeming quiescence that led to the appointment of a sub-committee of the committee on resolutions to consider the proposition of instructing delegates for Bryan.

PROHIBITIONISTS WILL MEET

Plan Is to Endorse Dispensary System Created by Billups Bill.

Guthrie, Okla., April 14.—Prominent members of the prohibition party are arriving tonight for the state meeting to be held here tomorrow when, in all probability, delegates to the national convention will be selected.

The program of the prohibitionists is to endorse the dispensary system

MAKE YOUR SELECTION NOW OF

New Spring Clothing

SPERO, MICHAEL & SONS
New York

Children Suits

We certainly show the best line of suits for the little fellows, in all the latest effects. Russian blouses, Norfolk and Sailors, all made with blumers and knickerbocker pants. Prices are most reasonable considering the quality first. \$1.50 to 7.00

Bat and Ball given free with every boy suit.

I. HARRIS

created by the Billups prohibition law.

There is scant prospect tonight for a fight on the proposition. Many of the party have been laboring under a misrepresentation of the new law by radical republican papers. The working of the system will be thoroughly explained and discussed tomorrow.

Chas. Rowan of Carmen, state chairman, will preside. Speeches will be made by Chas. R. Jones, of Chicago chairman of the national committee, and Eugene Chafin, of Chicago, a prominent prohibitionist.

Dog Swims for Drowned Lad.

Frederick, Okla., April 14.—Charles Pike, nine years old, while playing with his companion and his dog around the edge of the pond near the waterworks plant, accidentally fell into the water and was drowned before relief could reach him. The faithful dog, becoming alarmed, leaped into the water and swam around upon the surface just above the spot where the boy sank, waiting for his young master to rise. The companion bore the news to the unfortunate boy's mother and she came alone to the scene. The body was recovered 10

minutes after the boy sank. He was the son of B. M. Pike, a prominent business man of Frederick.

Lecture Tonight.

Dr. Skinner, national lecturer for the I. O. G. T. of America will deliver a lecture at the Baptist church this evening. Dr. Skinner is a strong man and you will enjoy him immensely if you hear him.

COL. LUCAS RETURNS.

The Chairman 25,000 Club Talks of Doings in Guthrie—Compliments Ada's Representatives.

Col. E. H. Lucas, the accomplished president of the 25,000 Club, returned from Guthrie this morning where he was engaged looking after state normal interests. Being asked by the reporter concerning the general status as effected Ada, Col. Lucas, in substance, remarked: "The situation looks good. The presentation of Ada's claims for the state normal was made Tuesday evening before a full committee on the location of state institutions. In addition to the presence of the committee, a considerable number of other members of the legislature were interested spectators. Judge Furman and Rev. Rippey delivered strong addresses before the committee in behalf of Ada and did our cause much good. Furman and Rippey both seem their best and I believe their remarks were received with telling effect. Our representatives in the legislature and fellow townsmen who have been lobbying for Ada in Guthrie have done nobly, especially it fitting to commend the splendid services of Mr. W. H. Ebey. He is the right man in the right place in this proposition where so much tact and good judgment are required."

Col. Lucas stated further, "Of course, it would not be polite to suggest in detail the particular acts of our representatives or of the organized lobby which have promoted Ada's outlook for the normal to the present flattering position, but suffice to say, all our fellows, Ebey, Furman, Mossman, Rippey, Reed, Duncan and down the line are very much covering the ground in Guthrie."

Col. Lucas came home feeling good and that is good.

In prescriptions put up at this drug store you are certain of getting just what your doctor prescribes. Some druggists use substitutes. We don't and don't have to. Our drug stock in the prescription department is so complete we can fill any prescription presented. There's no risk in using our prescriptions and no over charges are ever made.

Points from Message.

"I earnestly advise that congress now provides four battleships of the most advanced type."

"I can not too emphatically say this is a measure of peace and not of war."

"For centuries China has refused to provide military force, and has treated the career of the soldier as an inferior honor. In external affairs the policy has resulted in various other nations now holding large portions of Chinese territory."

"The state department is continually applied to to interfere on behalf of peoples and nationalities who insist that they are suffering from oppression."

"It is possibly a conservative statement to say that within the last twelve years, at periods of profound peace, massacres and butcheries have occurred in which more lives of men, women and children have been lost than in any single great war since the close of the Napoleonic struggle."

"The United States can hope for permanent peace only on condition of building, and maintaining a first-class navy."

"If we desire to avoid insult we must be able to repel it."

STATE OF OKLAHOMA, PONTOTOC COUNTY, ss.

Funeral Halts; Son Living.

Chickasha, Okla., April 14.—"I am tolerably alive and well, thank you." This message the wires flashed from Foster, Texas, to W. R. Cooper and turned into joy the experience of a heart breaking with grief as the old man stood beside the casketed form of a murdered young man whom he had positively identified as his son. Charles Cooper, who was murdered near Rush Springs a few days ago, has not been identified. W. R. Cooper came from Cleburne, Tex., examined the body and claimed it as that of his son. Arrangements had been made to ship the body back home for burial when the message from the son came.

That languid, lifeless feeling that comes with spring and early summer, can be quickly changed to a feeling of buoyancy and energy by the judicious use of Dr. Shoop's Restorative. The Restorative is a genuine tonic to tired, run-down nerves, and but a few doses is needed to satisfy the user that Dr. Shoop's Restorative is actually reaching that tired spot. The indoor life of winter nearly always leads to sluggish bowels, and to sluggish circulation in general. The customary lack of exercise and outdoor air ties up the liver, stagnates the kidneys, and oft-times weakens the Heart's action. Use Dr. Shoop's Restorative a few weeks and all will be changed. A few days test will tell you that you are using the right remedy. You will easily and surely note the change from day to day. Sold by G. M. Ramsey.

Some Opinions of The Vanishing Fleets

Philadelphia Record

If you are looking for action, something of the marvelous, excitement and mystery, you will suffer no disappointment in reading "The Vanishing Fleets." It pulsates and vibrates with life, and is a quickener of patriotism. Americans are credulous and Mr. Norton has the genius to tell a wonderful story and to keep readers in a delightful state of mystification and expectancy.

Brooklyn Eagle

When you are gifted with an imagination—turn it loose; don't hamper it; let it cavort. The results may be astonishing—even paralyzing to the normal conception—but there will be something doing. One concludes that this policy of emancipation was followed by the author of "The Vanishing Fleets." If this story is any indication of Mr. Norton's future, he will go far.

Weak women get prompt and lasting help by using Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories, with full information how to proceed are interestingly told in my book "No. 4 For Women." The book and strictly confidential medical advice is entirely free. Simply write Dr. Shoop, Racine, Wis., for my book No. 4. Sold by G. M. Ramsey.

Pain, anywhere, can be quickly stopped by one of Dr. Shoop's Pink Pain Tablets. Pain always means congestion—unnatural blood pressure. Dr. Shoop's Pink Pain Tablets simply coax congested blood away from pain centers. These Tablets—known by druggists as Dr. Shoop's Headache Tablets—simply equalize the blood circulation and then pain always departs in 20 minutes, 20 Tablets 25 cents. Write Dr. Shoop, Racine, Wis., for free package. Sold by G. M. Ramsey.

Piles are easily and quickly checked with Dr. Shoop's Magis Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen painful, bleeding or itching piles either external or internal. Large jar 50c. Sold by G. M. Ramsey.

Lady Bitten by Dog.

About 1:30 this afternoon as Miss Lela Beal, of the Wright Dramatic Co. who are now playing at the Air Dome was walking along Broadway, a vicious dog belonging to Henry Nelson, a farmer, attacked her. Mr. Nelson had driven his wagon close to the side walk and had the family into Mr. Guest's store and were trading when the incident occurred. Jack Wilson, who runs a paint shop on Townsend avenue, being near and having noticed the dog attack several people immediately secured a shot gun and killed the dog. Mr. Nelson became very angry and attempted to have Mr. Wilson arrested but of no avail. The wounds of Miss Beal are not supposed to be of serious nature and it is hoped it will give her no trouble. Jack deserves much credit for using a gun, and this should be a warning to all farmers to leave their vicious dogs at home.

The Harris hotel among its numerous additions and improvements lately has acquired an up to date cigar department.

Home Mission Notes.

There are 82,000,000 people in the United States, and only 19,000,000 protestants. Shall we become a heathen nation?

It is estimated that there are 2,000,000 children in the United States employed in gainful occupations between ten and fifteen years of age. 44,427 in the cotton mills.

April 17th has been set apart as a day of prayer for the annual meeting of the Woman's Board of Home Missions, which will be held in Louisville, April 21-23.

The Woman's Home Mission Board employs twenty-seven deaconesses, but last year there were fifty urgent calls which could not be supplied.

CHAPTER I.

A Sleeping Nation.

Apathetic and unprepared the country stood on the verge of war. The wheels of many closing factories had droned a final protest, idleness was spreading, and throughout the land the subject of the impending conflict was gravely discussed. Distinguished orators in great cities predicted dire losses in prestige and honor, and every hamlet had its prophet of woe. The nation's position as a first-class power, even its very integrity, seemed at stake.

And in all this ominous unrest, this clamor for action, the administration at Washington sat unmoved, smiling what seemed to the country and the world at large a fatuous smile of complacency. It was then endeavoring, as in previous crises, through the use of high-sounding words, to avert an actual clash at arms.

For some years there had been mooted questions between Japan and the great American republic, due in the first instance to troubles of a purely racial character. The Pacific coast, which for many decades had been compelled by its geographical situation to face an economic invasion from the orient, wanted none of the small men from across the water.

Other complications followed. Japan by example and precept rejuvenated the sleeping giant which spoke her sister tongue and had with her an offensive and defensive alliance that could be invoked in time of need, and by further adroit policy maintained a similar compact with Great Britain. She waxed prosperous, demanding trade concessions where once she had begged them. Nor had she neglected the perfecting of her navy, which from the time of her war with Russia had been one of the most capable. Now it equaled in size and probably excelled in fighting efficiency that of the United States.

In the Philippines the racial war came to such an acute stage that Japan demanded immediate adjustment, although following the same diplomatic methods which characterized her career as an advanced nation—pitifully pleading to the world at large that she was a small power whose only wish was for peace; invoking sympathy on the one hand and preparing to strike before hostilities were anticipated on the other.

And in the midst of all this turmoil of mind and passiveness of accomplishment, Guy Hillier, secretary of the British embassy in Washington, found other and more personal annoyances. The particular vexation was a woman's perversity.

He brooded over his love affair more than the welfare of nations, as he stood in the great railway station of the capital on this night, watching for the arrival of the Florida special which was to bring to him Norma Roberts, after an absence of nearly a month.

With some bitterness he recalled that it was not the first time within six months that he had loitered in this station. To him it seemed that since he first had known the girl he always had been waiting and longing. She had held him in thrall since the night he met her more than a year before, when half reluctantly he had accepted an invitation to a reception given to her father; and yet in all that after time he had been in perpetual suspense. The reception had been much like other receptions, and was given in honor of another invention by "Old Bill Roberts," as he styled himself and was known to his intimates.

Guy had gone through mere curiosity, wishing to see at short range a man who only a few years before had been dubbed a "harebrained crank," but whose work had proved him otherwise. He remembered the lights of the drawing room, the throng of guests, and that Roberts had forgotten the event and kept some of the most distinguished men of the nation, including every member of the cabinet, waiting till he could be dragged from his laboratory at the end of the garden.

Everyone had taken the remissness with American good humor, laughed and chatted till a search could be made, and then given way to the inventor's entrance, which was not triumphal. It was effected with something approaching a lack of proprieties. There had been the sound of a high-strung, snarling voice in protest from the lower end of the drawing room, which was luxuriously furnished and presided over by Norma. There had been a moment's silence, then an exclamation loud enough to be heard by those who were curiously expectant.

"Well, I couldn't help it," the petulant words came. "I got tired of waiting around, and went back to work. You got me into this mess. You know I don't like dress affairs, and hate dress suits. Working clothes suit me best. So there!"

Everyone had looked at one another understandingly and smiled when the eminent scientist and inventor had been led into the room. Guy, craning his neck in a sudden desire to see this entry, had a confused picture of a

man with a shock of white hair and long eyebrows, from beneath which glared eyes of great restlessness, and also remembered that the dress suit which had caused so much worry was stained with freshly spilled chemicals, and that even as he came the inventor was furtively wiping a pair of grimy hands on his handkerchief. But it was not the man nor the suppressed titters of laughter that he recollected best; it was the girl who escorted him.

She came leading her father by the arm, the daintiness of her costume enhanced by the marks of the workshop on his coat. She walked smilingly forward, completely self-possessed, with head thrown back, and making no apologies. Had it not been for the conversation at the door, overheard within the room, none would have supposed that she wished a more ceremonious appearance. She challenged with her eyes as she passed her guests, and to Hillier's surprise, bound in conventionality as he always had been, it suddenly seemed that in all of it there was nothing inappropriate nor incongruous.

Then came that later hour when he was introduced to the savant, and the latter had looked him squarely in the eyes and given him a handshake that was surprisingly strong. And the girl! At the first word spoken by her his heart gave a great leap, insistently demanding that he should know her better. It had been easy to yield to its call, and he made occasion to be as near her side throughout the evening as was possible. He was to learn later that she always was with her father, nearly always inaccessible, and sometimes wrapped in such thought that he could scarcely probe her mind. The evening of their meeting had ended as do all evenings; but thenceforth he had sought her. Their acquaintance grew to a more friendly basis, and went steadily forward until on his part at least it culminated in love. Sometimes he had the courage to believe it returned. At other times he grew despondent in his assault on the portals of her heart, but now that war and separation threatened, he was resolved to bring his siege to the issue and gain an answer.

A long-drawn whistle of increasing volume vibrated through the dusk; one headlight stared more steadily than the others which gleamed across the network of steel rails beyond and came swiftly, picking a trail to the great arched shed. With a final clanging of its bell, the big locomotive perspired past him, the whistling brakes gave a harsh grind and the train came to a halt.

Guy hurried back with quick, impatient steps to the Pullman, where negroes dropped carpeted steps. In time to see the one for whom he waited emerge, calm and immaculate as usual, but with such a gladness of welcome in her eyes that he could barely resist taking her into his arms. Time might drag, but it always found her unchanged. In sudden awkwardness he took her lighter luggage and wrap and walked with her to the exit of the noisy station, finding all his carefully formulated sentences forgotten, and listening to her rather than saying anything himself.

Almost the first question she asked him was of the war; and at this he felt a tinge of disappointment. It was too impersonal a topic for a man who had waited a month for an opportunity to speak of affection. He would rather she gave first thought to what he had been doing, what he was going to do and what he wished to do. Even when they reached a more quiet place away from the din of railway traffic and aside from the rush of outgoing passengers, she turned toward him with a grave face and asked for "the real latest news."

"Do tell me," she said, "not what people say, or what the officials send out, but the real inside situation. Is there going to be any war?"

"I am afraid so," he answered, gloomily. "The government is still insisting that there is not much danger of a clash, and backs up its manifestoes by making no preparation whatever. There has been no attempt to mobilize a fleet in the Pacific, nor to assemble other vessels from foreign ports; but our own advices are that war is inevitable and may come at any moment."

She did not respond, but seemed almost to have forgotten him in her reverie and contemplation of his words. Nor did she express surprise and interest when he gave her a seat in the brougham which waited for them beside the station gates. Not till she heard him order the driver to take them to a fashionable cafe did she return from the land of abstraction and become vivacious again.

"Where are you taking me?" she asked. "Did I understand it that we are going to an old friend? I'm half starved, and am going to drop all this war subject for a while."

When he told her their destination she clapped her hands and showed her approval by saying: "That's good. Do you remember the little balcony overlooking the street where green things grow and we used to sit last

GET READY FOR WAR

ROOSEVELT IS ANXIOUS FOR ACTION ON BATTLESHIP APPROPRIATION.

FOUR BATTLESHIPS NEEDED

Nations Too Jealous to Give An Assurance of Universal Peace He Asserts.

Washington, April 14—Virtually asserting that war is a contingency that may be expected to arrive at any time and bemoaning the fact that the Hague conference has not given the world any assurance of universal peace, President Roosevelt sent a message to congress today in which he calls upon America's legislative bodies to provide at once for the construction of four battleships.

Says the president:

"It is idle to assume and, from the standpoint of national interest and honor, it is mischievous folly for any statesman to assume that this world has yet reached the stage or has come within a measurable distance of the stage, where a proud nation, jealous of its honor and conscious of its great mission in the world, can be content to rely for peace upon the forbearance of other powers. It would be equally foolish to rely upon each of them possessions at all times and under all circumstances and provocations an altruistic regard for the rights of others."

The message throughout is an admission that all hope of securing an agreement between nations, whereby the rate of increasing armament will be cut down has disappeared and that the only protection that a country may expect among the world powers is a steady and unrelenting preparation for war.

Following the reading of the message, the "antis" later gave vent to their feelings by applauding a petition from a number of citizens of New York City which was read at the instance of Mr. Tawney protesting against "the extravagance of spending over sixty million dollars for four battleships."

It was evident that the final vote will be close.

HOT FIGHT FOR BRYAN.

Friends of Nebraskan to Demand Recognition Today.

New York, April 14—The committee on resolutions late tonight adopted a set of resolutions to be presented to the convention when it reconvenes tomorrow, providing for an undisciplined delegation to the national democratic convention at Denver.

New York, April 14—Sharp political skirmishes during the first session of the democratic state convention today, which developed a well-entrenched opposition to an instruction of New York delegates to the Denver national convention, was followed tonight by a general engagement of all the Bryan forces to force the committee on resolutions to endorse the candidacy of William J. Bryan for president by instructing the delegates to the national convention for him. While the first session of the convention at Carnegie hall, held for the purpose of organization, was apparently devoid of those incidents that betaken conflicting policies and an exciting convention, there were moves and counter-moves made beneath this substream of seeming quiescence that led to the appointment of a sub-committee of the committee on resolutions to consider the proposition of instructing delegates for Bryan.

PROHIBITIONISTS WILL MEET

Plan Is to Endorse Dispensary System Created by Billups Bill.

The program of the prohibitionists is to endorse the dispensary system

created by the Billups prohibition law.

There is scant prospect tonight for a fight on the proposition. Many of the party have been laboring under a misrepresentation of the new law by radical republican papers. The working of the system will be thoroughly explained and discussed tomorrow.

Chas. Rowan of Carmen, state chairman, will preside. Speeches will be made by Chas. R. Jones, of Chicago, chairman of the national committee, and Eugene Chafin, of Chicago, a prominent prohibitionist.

Dog Swims for Drowned Lad.

Frederick, Okla., April 14—Charles Pike, nine years old, while playing with his companion and his dog around the edge of the pond near the waterworks plant, accidentally fell into the water and was drowned before relief could reach him. The faithful dog, becoming alarmed, leaped into the water and swam around upon the surface just above the spot where the boy sank, waiting for his young master to rise. The companion bore the news to the unfortunate boy's mother and she came alone to the scene. The body was recovered 10

minutes after the boy sank. He was the son of B. M. Pike, a prominent business man of Frederick.

COL. LUCAS RETURNS.

The Chairman 25,000 Club Talks of Doings in Guthrie—Compliments Ada's Representatives.

Col. E. H. Lucas, the accomplished president of the 25,000 Club, returned from Guthrie this morning where he was engaged looking after state normal interests. Being asked by the reporter concerning the general status as effected Ada, Col. Lucas, in substance, remarked: "The situation looks good. The presentation of Ada's claims for the state normal was made Tuesday evening before a full committee on the location of state institutions. In addition to the presence of the committee, a considerable number of other members of the legislature were interested spectators. Judge Furman and Rev. Rippey delivered strong addresses before the committee in behalf of Ada and did our cause much good. Furman and Rippey both made their best and I believe their remarks were received with telling effect. Our representatives in the legislature and fellow townsmen who have been lobbying for Ada in Guthrie have done nobly, especially is it fitting to commend the splendid services of Mr. W. H. Ebeey. He is the right man in the right place in this proposition where so much tact and good judgment are required."

Col. Lucas stated further, "Of course, it would not be polite to suggest in detail the particular acts of our representatives or of the organized Ada lobby which have promoted Ada's outlook for the normal to the present flattering position, but suffice to say, all our fellows, Ebeey, Furman, Kossman, Rippey, Reed, Duncan and down the line are very much carrying the ground in Guthrie."

Col. Lucas came home feeling good and that is good.

"I earnestly advise that congress now provides four battleships of the most advanced type.

"I can not too emphatically say this is a measure of peace and not of war."

"For centuries China has refused to provide military force, and has treated the career of the soldier as an inferior honor. In external affairs the policy has resulted in various other nations now holding large portions of Chinese territory."

"The state department is continually applied to to interfere on behalf of peoples and nationalities who insist that they are suffering from oppression."

"It is possibly a conservative statement to say that within the last twelve years, at periods of profound peace, massacres and butcheries have occurred in which more lives of men, women and children have been lost than in any single great war since the close of the Napoleonic struggle."

"The United States can hope for permanent peace only on condition of building, and maintaining a first-class navy."

"If we desire to avoid insult we must be able to repel it."

Funeral Halts; Son Living.
Chickasha, Okla., April 14.—"I am tolerably alive and well, thank you." This message the wires flashed from Foster, Texas, to W. R. Cooper and turned into joy the experience of a heart breaking with grief as the old man stood beside the casketed form of a murdered young man whom he had positively identified as his son.

Charles Cooper, who was murdered near Rush Springs a few days ago, has not been identified. W. R. Cooper came from Cleburne, Tex., examined the body and claimed it as that of his son. Arrangements had been made to ship the body back home for burial when the message from the son came.

That languid, lifeless feeling that comes with spring and early summer, can be quickly changed to a feeling of buoyancy and energy by the judicious use of Dr. Shoop's Restorative. The Restorative is a genuine tonic to tired, run-down nerves, and but a few doses is needed to satisfy the user that Dr. Shoop's Restorative is actually reaching that tired spot. The indoor life of winter nearly always leads to sluggish bowels, and to sluggish circulation in general. The customary lack of exercise and outdoor air ties up the liver, stagnates the kidneys, and oft-times weakens the heart's action. Use Dr. Shoop's Restorative a few weeks and all will be changed. A few days test will tell you that you are using the right remedy. You will easily and surely note the change from day to day. Sold by G. M. Ramsey.

Some Opinions of The Vanishing Fleets

Philadelphia Record

If you are looking for action, something of the marvelous, excitement and mystery, you will suffer no disappointment in reading "The Vanishing Fleets." It pulsates and vibrates with life, and is a quickener of patriotism. Americans are credulous and Mr. Norton has the genius to tell a wonderful story and to keep readers in a delightful state of mystification and expectancy.

Brooklyn Eagle

When you are gifted with an imagination—turn it loose; don't hamper it; let it cavort. The results may be astonishing—even paralyzing to the normal conception—but there will be something doing. One concludes that this policy of emancipation was followed by the author of "The Vanishing Fleets." If this story is any indication of Mr. Norton's future, he will go far.

Weak women get prompt and lasting help by using Dr. Shoop's Night Cure. Lady Bitten by Dog.

About 1:30 this afternoon as Miss Lela Beal, of the Wright Dramatic Co who are now playing at the Air Dome was walking along Broadway, a vicious dog belonging to Henry Nelson, a farmer, attacked her. Mr. Nelson had driven his wagon close to the side walk and had the family into Mr. Guest's store and were trading when the incident occurred. Jack Wilson, who runs a paint shop on Townsend avenue, being near and having noticed the dog attack several people immediately secured a shot gun and killed the dog. Mr. Nelson became very angry and attempted to have Mr. Wilson arrested but of no avail. The wounds of Miss Beal are not supposed to be of serious nature and it is hoped it will give her no trouble. Jack deserves much credit for using a gun, and this should be a warning to all farmers to leave their vicious dogs at home.

SENATE DEBATE CAUSES ENCOUNTER IN OKLAHOMA SENATE CHAMBER.

RODDIE AND HOOKER HAVE CONFLICT

Normal School Locations and Failure To Provide for Other Parts of State Brings on Struggle.

Guthrie, Ok., May 14.—Senator Roddie of Ada and Senator Morris of Hooker engaged in a fist fight in the senate chamber this morning over debate upon a bill making an \$85,000 appropriation to furnish additional buildings for the Edmund Normal school.

The encounter was without damage save an abrasion upon Senator Roddie's right temple and like injuries to Senator Morris' nose and forehead. Senator Brook of Muskogee while attempting to hold the Senator from Hooker received a wild but unintentional blow from the senator from Ada planted upon his right brow. The engagement was brief, but rapid, and as the combatants as well as the "innocent bystanders" were well bunched, no one went to the floor.

Today's debate possessed a color of yesterday's signal defeat given the senate committee's report recommending locations of new normal schools on the east side of Ada, Durant and Tahlequah.

Several of the east side senators opposed the bill, asking how they would be able to explain at home the absence of schools needed for that side of the state, yet large appropriations for new buildings for the west side normals. To this Senator Roddie added that Senators from the west side had contributed to the defeat of the new normals on yesterday.

Senator Morris in a rather positive manner twice challenged the statement as being untrue, whereupon the Senator from Ada hurried forward and the two met in the center aisle. Notwithstanding the interference of Sergeant at Arms Etter and several of the members, the Senators rained blows upon one another. Senator Brook holding Senator Morris, sought to ward off a blow given by the Ada Senator, and received a staggering jolt upon the jaw. When order was restored both of the senators gave to the senate their apologies.

The senate made appropriations today aggregating \$779,000 for the Oklahoma institutions. In the last was \$85,000 for new buildings at the Edmund Normal, \$267,500 to replace the buildings of the State University recently burned, \$100,000 to replace buildings of Langston Colored University recently burned, \$100,000 for additional buildings for the Weatherford Normal, \$222,000 for new buildings and equipment at the A. & M. College at Stillwater, and \$4,500 to apply on the salaries and expenses of the state board of education. All of the normal appropriations met with opposition from senators from the east side of the state. Senator Graham of Marietta characterized the appropriations as unfair to the people for the reason, he said, that when the east side comes to the legislature next year asking for additional school the proposition will be met with a depleted fund by reason of the many appropriations today.

A promise was made, however, to assist in providing the east side with temporary normals this year.

The senate finally passed the bill by Senator Stewart locating the East Side insane asylum at Hugo. The town is to be the state 160 acres of land and furnish the institution with water and electric lights for ten years.

The Durant bill creating the positions of employees of the corporation commission was also passed finally by the senate after it had rejected a committee report, which increased the salary of the expert rate clerk to \$5,000 per year and stipulated that

he should be at least 35 years of age and have had ten years' experience in railroad rate making. These recommendations were in line with those of the governor. The senate, however, reinserted the state engineer at \$2,000 per year, which the house had eliminated, and provided that when not engaged with the commission he should be subject to the orders of the governor.

The house spent the entire day on the Fisher bill, providing for sale of the public lands. Several sections of Speaker Murray's substitute, which had been voted down on two occasions, were adopted and placed in the bill. As the legislation stands, sale of the land is confined to 160-acre tracts, but buyers are not restricted to the state; neither are they prohibited from owning as much land in any other state. A residence of two years is required after purchase is made from all but the present lessees unless the land bought has never been leased, in which event the residence provision applies to all. Lessees are given a preference right to 160 acres and no more.

Representative Branson is the author of a resolution carrying a memorial to Congress asking that those sections of the enabling act be repealed wherein they give to the non-resident lessee a preference right to any of the public land. There is some opposition to the restriction of sale to 160 acres. Mr. Durant contended that legislation would not create a desire among the people for homes and in this he referred to the Indians for whom the government has legislated.

Mr. Durant stated that as fast as the land became alienable the Indians would sell. It was his opinion that restricted to 160 acre tracts it would be but a short time until the land was owned in large holdings.

A resolution by Mr. Evans and Mr. Lockwood complimenting Congressman McGuire, the republican member from Oklahoma, for his efforts in securing removal of restrictions, was referred to the house committee on federal relations.

GET INTEREST ON 5 MILLION

Government Will Pay State \$270,000 on School Fund.

Washington, May 14.—In a decision handed down today, Comptroller of the Treasury Tracewell holds that Oklahoma is entitled to 3 per cent interest on the \$5,000,000 school fund which the government gave it, from the day the enabling act was passed until the money was actually paid over. This reversed the auditor of the treasury, who held that the state was only entitled to interest on the money from the day the state was admitted. The Tracewell decision gives Oklahoma an additional \$270,000.

TATT'S ALLIANCE WITH MONOPOLIES

Anti-Trust League Secretary Claims He Can Prove Charges Made.

Washington, May 14.—What will be practically a demand for an investigation by the senate of an alleged deal between Secretary Tatt's managers through which the Steel Trust and other Wall street interests are said to be supporting Secretary Tatt's presidential candidacy will be made by H. B. Martin, National secretary of the American Anti-Trust League, in a hearing before the Senate committee on Judiciary Saturday.

Mr. Martin will conclude his argument against the Hepburn amendment to the Sherman anti-trust law, and he said today that he would make some revelations which, in his opinion, would demand a thorough investigation of the methods pursued by Secretary Tatt's managers.

Haskell Approves Per Diem Bill.

Guthrie, Ok., May 14.—Gov. Haskell today signed the house bill appropriating \$31,391 and 6 per cent interest to pay the mileage and per diem of members of the constitutional convention accruing after the federal appropriation had been exhausted. He vetoed the item of \$235 appropriated for him as a member of the convention for the reason, he stated in the message, he did not believe he possessed the right to exercise his official authority in pressing the payment of his own claim. As to members of the convention, the gover-

nor stated their votes were not necessary in the passage of the bill, there could be no impropriety in their acceptance. He also approved the bill by Senator Memminger creating a school for the deaf to be located as are other state institutions.

When Senator Owen voted for the Aldrich bill made it necessary to do a lot of explaining. If he had voted against it no explanation would have been needed.—Vinita Leader.

Accident at Shawnee.

The south bound Katy was delayed a few minutes this morning on account of a serious accident in the yards at Shawnee. When the train was leaving a dead negro boy about ten years old was noticed on the track ahead of the train. The engine slowed down and blew his whistle or no whistle. The engine struck him and knocked him off the track and when the train again pulled out it was a sad sight.

The Vanishing Feet

BY ROY NORTON.

"Higher higher!" called the old inventor springing toward them and gesturing with his hands. The plates rose until they were held with finger tips and breathless suspense en chained the spectators.

Now stand from under! Let go of them! Let go of them!" yelled Roberts dancing up and down in excitement but the men still held on as if rendered powerless by astonishment.

Stand from under! commanded the admiral and discipline again mastering them they obeyed springing back in the apprehension that the two immense plates might by some necromancy come crashing down and disappear through the floor. With something almost like a sob, so great had been his mental strain Jenkins stood transfixed. The admiral gave a gasp and with one hand poised in the air stood like a statue. A hammer fell from the hand of one of the engineers standing behind and the man who had been tightly clutching the test tube opened his fingers and let it crash to the floor. In this tinkling sound of broken glass on cement another gave a sharp ejaculation and took an involuntary step forward.

They had witnessed the first positive exhibition of true levitation, a solid body suspended in the air without support. They had seen in times past with complacency knowing that it was dependent upon optical illusion the conjurer's trick mystifying to the outward sense but readily explainable in the light of investigation but here before them beyond the range of charlatanism in perversion of all known physical laws there hung motionless in the air dependent upon itself for its flotation a great mass of metal that but a short time before would have been beyond the power of their combined strength to lift.

And standing placidly beneath it enjoying their surprise and supremely triumphant stood a quiet little old man smiling up at his daughter whose hand he was holding.

CHAPTER XVI.

An Invincible Arm.

The officers still doubting their senses stood before this uncanny manifestation like men in a world of unreality. From without, for some unaccountable reason the varied clamor of industry had subsided to silence and the soldiers' song was finished. Even the yellow light of the afternoon which filtered through the window panes appeared strange spectral and unearthly. In the shadow of that massive thing which hovered above them, Nature seemed bent on the revocation of her laws and for an instant their senses reeled in the struggle for comprehension.

"Old Bill" Roberts broke the spell. He reached up and touched the tip of a finger to the mass and moved it gently toward them with no more exertion than would be necessary to push a toy balloon. There was no levity in him when he addressed them but rather the simple grandeur of one who has wrestled from Nature one of her greatest powers and was now preparing to harness it for all time a slave to peace progress and the welfare of his fellows.

"My friends," he said, "by the discovery of an alloy of metal and metaloids we have created a new substance, which when an electrical current of certain potentiality is passed through it becomes intensely radioactive, infinitely more so than radium. Through these machines and here he waved his hand at the twin apparatus in the rear, my daughter and I have produced electrical manifestations hitherto unsuspected and unknown. The metal itself, while radioactive to a certain degree, does not become intensely so without the application of the excitant current." He pulled the plate down till it rested on the floor and stood upon it while they, still awed, waited for his further exposition.

"This morning by an accidental contact which lasted until the plate had torn itself loose and broken the current, I saw to the full the possibilities it contained. The impact of the emanations; or radioactive corpuscles against the sheet of insulation and tank at the bottom drove it through the floor and into the ground, because the corpuscles which flew off in the other direction were unimpeded, free and harmless. Had the excitant current been maintained, the plate would have hurled itself indefinitely toward the center of the earth."

The officers gave a gasp of something almost approaching incredulity, with the exception of Jenkins, who nodded his head and excitedly rubbed his hands.

Roberts picked up a scrap at his feet and held it toward them. For years I experimented upon and perfected this," he said. "It is an insulation which will pass no current of electricity, and which no known heat can destroy. To-day by accident I learned that it was also an impervious screen to radioactive emanations. In the second experiment I so charged the alloy in my lower plate that it merely offsets gravitation, and put my sheet of insular substance between, and there we have levitation. Those

two plates are working against each other with nearly equal force, the balance being disturbed only in ratio to gravitation."

"The solution of the flying machine!" Jenkins shouted excitedly, and Roberts, appreciating the engineer's quick understanding, smiled and responded:

Deafness Cannot Be Cured.

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

MARTIN AND REED AS SAULTED FROM THE REAR

Cruel Joker Routes Leading Citizen From Business Conference.

Some punhead or coarse practical joker, surely not a jolly gentleman, and certainly a little thoughtless (if not brainless) played a joke (?) on two prominent and useful citizens of Ada shortly after the great badger and dog fight was quietly pulled off.

Mr. W. L. Reed of the First National bank and Mr. Martin, a general immigration agent for all the lines radiating out to radiate out of Ada, and persona grata with C. B. & Q. and Santa Fe lines were quietly discussing mutual business matters on the 4th step of the First National bank stairs and were rudely interrupted by an empty apple barrel rolled or thrown down the stairs. It made a horrible racket and a "sound" like something light. Of course they cleared the steps with more haste than grace. Mr. Reed was on the sidewalk first, with Mr. Martin a close second. Martin caught the barrel and threw it into the street. If Mr. Reed had lost a piece of his ear or had received a gash in the cheek from an overturning barrel, it would not have amounted to much. He has a wife who can and would plaster him up and nurse him. Mr. Martin hasn't. Mr. Martin doesn't carry a gun, he doesn't need one, he is a very quick, athletic man, spry as a jig dancer, quick as a flash, weighs nearly 170 lbs. and hits like a mule kicking, and can stand flat-footed on the ground and kick a man's hat off, or his whole chin. He has a lot of curios, a collection of teeth that he has knocked out, and left a large man, once upon a time, with a badly broken jaw as a memento of his prowess. He was a government clerk and a gymnasium instructor for three years. He is a busy man, a little high tempered at times, but a good fellow and has a large warm heart for all good people, but Mr. Martin utterly despises a pinhead, an ill-bred youth who has no respect for old (?) age. There are two or three young men (?) in Ada who are just about ripe to add a handful of teeth or a jaw bone to Mr. Martin's collection. A word to the wise should be sufficient and a fool should not close his ears. Mr. Martin is a gentleman, his people are old Virginia stock and have fought

May We Figure With You on Your Spring House Furnishings?

Eight years selling Greenland Refrigerators has convinced us that no more economic consumer of ice is to be had. We have them in the enameled as well as plain.

ART SQUARES. Our line of 9x12 Art Squares is superb. We bought them from the eastern factories direct, and our price is less by 10 per cent than we have seen same values in some of our larger cities. They come in the Wilton velvet, Axminster and Tapestry Brussels.

LAWN AND PORCH GOODS. Our stock of Lawn Swings, old Hickory Chairs, Rockers and Tables is complete. May we sell you? There is such comfort to be had by their use on a hot summer's day.

If it is a good Porch Rocker, a fine one for the parlor or an inexpensive sewing chair for comfort that you may wish, we have it. Price from \$1.75 up to \$15.00.

Last season we introduced the famous line of P. & N. Lawn Mowers, and so loud was the praise from those of our customers who tried them that we have this season purchased a more varied selection of sizes and styles. They come in the plain and ball bearing. Price \$6.50 to \$10.00.

Republicans Fear the People
Another striking example of the republican politicians lack of confidence in the good judgment of the people was furnished this week when every minority member of the legislature voted against the memorial asking congress to call a convention of the states to consider an amendment to the federal constitution providing for the election of United States senators by direct vote of the people.

Every republican member of the Oklahoma legislature voted against that memorial.

Every democratic member of the Oklahoma legislature voted for that memorial.

How do the honest voters of Oklahoma feel on this question? Do you want the right to exercise your individual judgment and preference in choosing your representatives in the United States senate or do you prefer to have the election of United States senators left in the hands of the state legislature?

The republicans of Oklahoma say that the present system, which made it possible for Gas Addicks to buy and hold a seat in the United States senate when 90 per cent of the voters in Delaware were against him is just what they want. They are perfectly satisfied with the system that has made the United States senate the Millionaires Club and out side of a dozen southern and western states has made it a thing unheard of for a poor man to be chosen senator.

The democrats of Oklahoma say that the people should be permitted to select their United States senators as they do other public servants. As is usual when the democrats of Oklahoma want anything they have taken the most practical and common sense means of securing this right for the people. Oklahoma has taken the initiative in asking for a convention to consider this amendment to the federal constitution. Twenty seven of the oldest states have followed Oklahoma's lead. Only three more are now required and it is only a question of waiting until the legislatures of the other states convene when more than the required number will emerge.

True to their policy of progress the democrats of Oklahoma are in the vanguard of this great movement to restore the government to the hands of the people.

True to their policy of objection and retrograde the republicans of Oklahoma through their representatives in congress have refused to call a convention to consider this amendment to the federal constitution.

State Printing Grant.

Quite a sensation was created in the State senate and spread throughout the state when the bill for the Guthrie Leader of which Senator Leslie C. Nichols is owner and editor was found to contain a huge graft in the thousands of dollars of over payment. Senator Nichols was excused from his seat and the bill was not passed. The bill was sent to the committee for the Guthrie Leader and the committee has not yet reported.

It is a strange thing that the Guthrie Leader, which is a very popular paper, should be the only paper in the state that is not paid for by the state. The Guthrie Leader is a very popular paper and it is a pity that it should be in such a position.

The whole thing has certainly put Senator Nichols in a bad position and deprives the Guthrie Leader of its management of any further standing or influence in the Democratic party.

Because of the exposures and the hanging of a contract by Frank Greer of the Guthrie Capital, and which required a reletting of them all the legislature has become disgusted and appears disposed to provide for a state printing plant. Such a course would require a large outlay of money and make it possible for greater graft than the contract system. And in addition to this, the state would deprive job offices and newspapers of work legitimately belonging to them.

Definite Line of Cleavage Between City and Agricultural Factions.

Chicago Ill May 10—The National convention of the Socialist party met in formal session for the first time today at noon in a blustering up roar of antagonistic interests. Every rule book points to a storm which may culminate at any moment during the week's life of the convention in a decisive and definite line-up as between the city Socialists in one camp and the agricultural Socialists in the other.

Beginning with the initial session at Brands Hall in a day which bristled with oratory roll calls contending interests and above all a demonstration which indicated from the Socialist standpoint that the belief is strong that the psychological moment for the Socialist party has arrived the delegates put in a strenuous Sunday.

Already there is a definite line of cleavage in the convention which is likely to continue through the week. The issue, apparent from the warm blooded addresses of the men and women delegates today is Shall the Socialist make a special appeal to the farmers of the United States and attempt to bring them into the ranks of outspoken Socialism?

When the convention adjourned this evening this problem was in the air. As high in the clouds was the temper of the convention as to its Presidential candidate. The first just now mentioned is Eugene V. Debs and William D. Haywood Debs can not control two thirds of the convention and neither can Haywood.

Debs is not in Chicago. His friends are credited with attempting to secure the adoption of the two thirds rule in order it is charged to defeat Haywood even at his own loss. A distinct attempt to force the two-thirds rule was defeated today by the precipitate adjournment of the convention. It will be the first thing fought over tomorrow morning.

Tired nerves with that no ambition feeling that is commonly felt in spring or early summer can be easily and quickly altered by taking what is known to druggists everywhere as Dr. Shoop's Restorative. One will absolutely note a changed feeling with 148 hours after beginning to take the Restorative. The big sun in the winter months the circulation often slows up, the kidneys are inactive and even the heart in many cases grows decidedly weaker. Dr. Shoop's Restorative is recognized everywhere as a genuine tonic to these ailments. It builds up and strengthens the worn out weakened nerves. It helps in falling appetite and universally aids digestion. It always quickens renewed strength, life vigor and ambition. Try it and be convinced. Sold by G. M. Ramsey.

It Reaches the Spot.

Mr. L. Humphrey who owns a fine meat store at Omeza, O., writes a letter to the Adams County Telephone Co. of Lake County, O. says of Dr. King's New Discovery: It saved my life once. At last I think I did. It seems to reach the spot—the very seat of my cough when everything else failed. Dr. King's New Discovery not only reaches the exact spot, it has the sole right and the real spots in throat and lungs. Sold under guarantee by F. Z. Holley and G. M. Ramsey.

When your food seems to nauseate take Kodol. Take Kodol now and until you know you are right again. There isn't a doubt about what it will do and you will find the truth of his statement verified after you have used Kodol for a few weeks. It is sold here by Crescent Drug Store, F. Z. Holley Prop.

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of dyspepsia, indigestion, and indigestion as real diseases, but they are symptoms of a real disease, the stomach is not working properly. It is this fact that first correctly led Dr. Shoop to the creation of the now very popular Stomach Remedy—Dr. Shoop's Restorative. Selling direct to the stomach nerves, alone brought these secret and hidden troubles to the surface. With out that original and highly vital principle, no such lasting accomplishments were possible. For stomach distress, bloating, biliousness, flatulence and all other complaints, try Dr. Shoop's Restorative. The only one of its kind—truly what it can and will do. We sell and ship everywhere.
